Jobify Job Search app is the easiest way to find the jobs you want, send job applications, and manage your career search from anywhere at any time. The search starts today!

- ✓ Prepare for Your Next Job
- ✓ See Available Jobs All Around You
- ✓ Build a Resume or Curriculum Vitae
- ✓ Get connected with our best mentors for career guidance
- ✓ Customize Your Job Search
- ✓ Manage Your Job Applications

Problem

- Job finder filling all the personal information like name, mobile number, email id, uploading resume, It takes more steps and time to fill this.
- Apps are not being localized for all the state users.
- Finding Jobs near you it's is difficult.
- There are no Personalize a message box before applying for a Job.
- It is difficult to apply for job first when there are openings in top companies due to huge competition (Job Seekers).
- Reviewing (status, comments, company credibility) the employer within the app is not possible.
- It is difficult to connect to Job finder and employer.

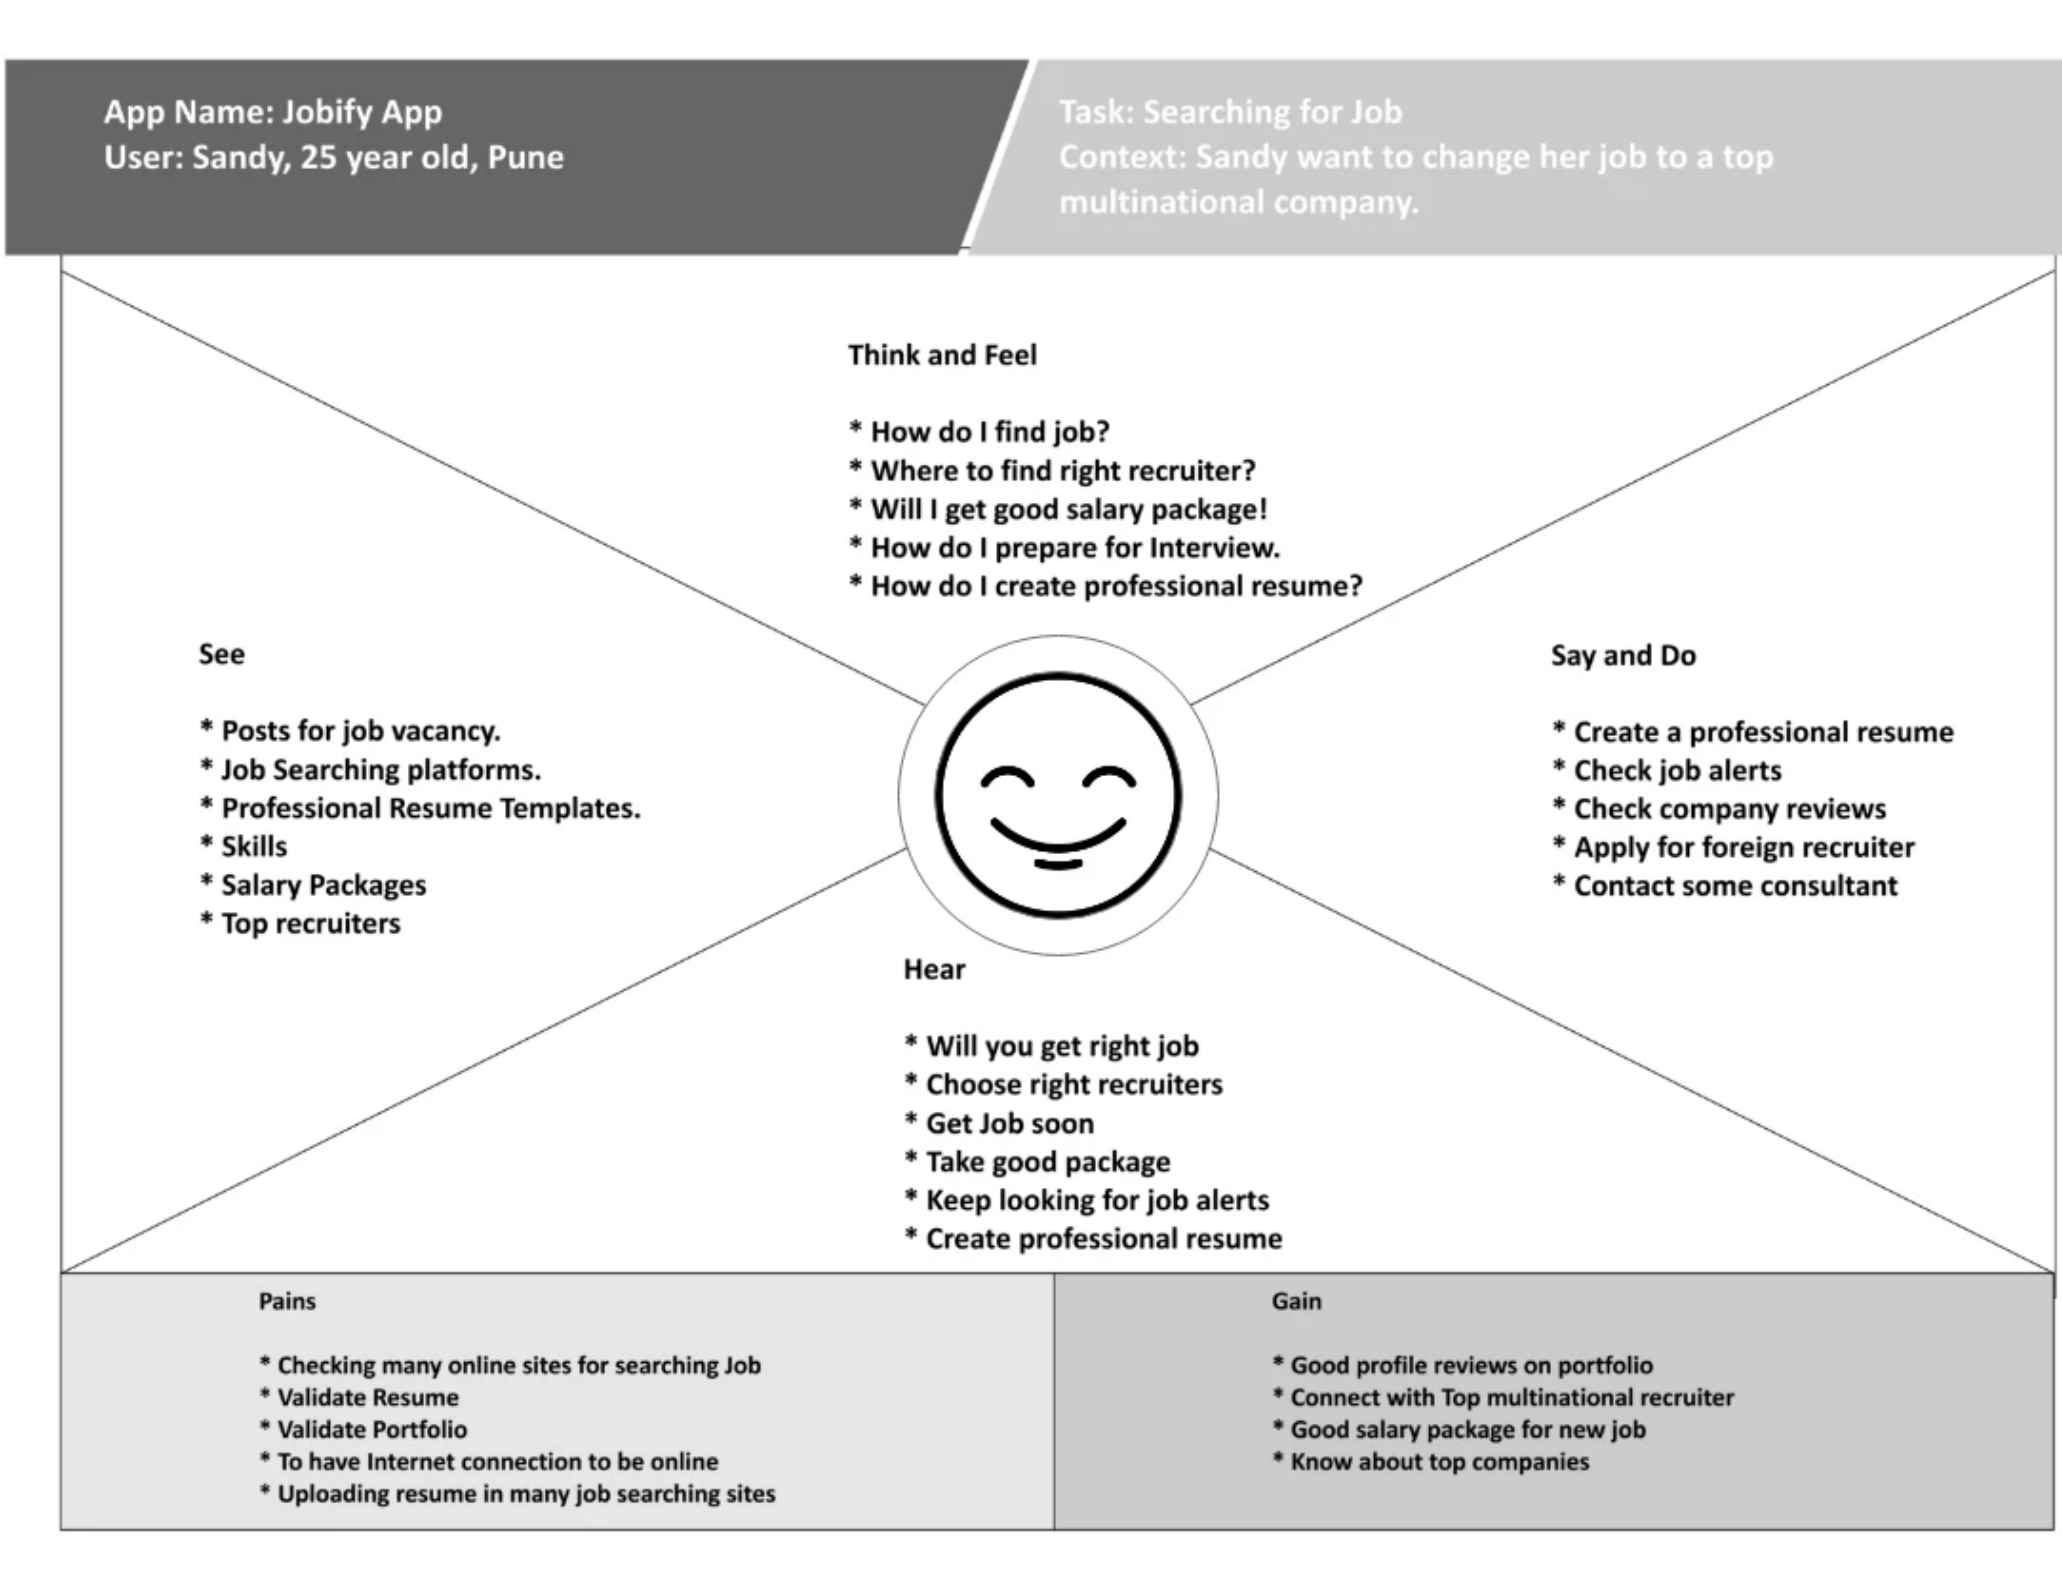
Solution

- Integrate to LinkedIn login so that after logging in automatically all the fields (Personal Information) needs to autofill with one touch.
- Making app localized with all the Indian languages.
- Find openings near you with your device GPS.
- Adding personalize message box before applying for a job to connect to the right recruiter.
- Be the first to apply when there are openings by following favourite companies to get the latest jobs and news.
- Review your application within the app before applying.

Target Audience Job Seeker, 15 to 55 year old audience & All over India

Empathy Map

An empathy map is a collaborative tool teams can use to gain a deeper insight into their customers. Much like a user persona, an empathy map can represent a group of users, such as a customer segment.



App Name: Jobify App
User: Sandy, 25 year old, Pune

Task: Searching for Job
Context: Sandy want to change her job to a top multinational company.
